

Global Recycling Day, 18 March 2019

Every year, the earth yields billions of tons of natural resources to transform into consumables. At some point, there will be nothing left. That's why we must, as a planet, think again about what we throw away- seeing not waste, but opportunity. Global Recycling Day was created in 2018 to help recognize, and celebrate, the importance recycling plays in preserving our precious primary resources and securing the future of our planet. It is a Day for the world to come together, and put the planet first.

As a part of Global Recycling Day, GIDC Degree Engineering College's students take a pledge to keep our nation, a cleaner and a healthier environment to live in. In addition they undertake a solemn pledge to hand over all the waste to Riyansh Pre Moulders LLP, Navsari, by registering contribution towards Swatch Bharat Mission. Furthermore, pledges were taken by students to make every effort to recycle as much waste as possible to reduce the volume of waste generated. Finally, they make commitment to educate others to willfully participate to keep our nation, a cleaner and a healthier environment to live in.
