

Workshop on "Energy Conservation Awareness"

The workshop on "Energy Conservation Awareness," sponsored by the Gujarat Energy Development Agency (GEDA) and hosted by the **Electrical Engineering Department, GIDC Degree Engineering College, Navsari**, was successfully conducted on **11th February, 2025**. The event was coordinated by **Dr. Ankur P. Desai, Assistant Professor, Electrical Engineering Department**, under the guidance of **Dr. Rakesh J. Motiyani, Head of the Department**.

Total **99 students and 9 faculty members** have participated in the workshop. The expert speaker having **38 years of industrial experience, Mr. Jitendra Vyas (Energy Manager)** provided the valuable insights on energy conservation. He elaborated on various energy sources, their global reserves, the importance of renewable energy, and its role in nation-building. Additionally, he discussed different strategies for energy conservation and demonstrated the equipment and instruments used in industrial energy audits.

The workshop proved to be **highly beneficial** for both students and faculties, enhancing their understanding of energy conservation and its practical applications.
